EDUCATION

- **MSc. Bioinformatics Applied to Precision Medicine and Health** Madrid, Spain
Instituto de Salud Carlos III Sep. 2020 – Oct. 2021
- **MSc. Science Teaching in Secondary Education** Barcelona, Spain
Universitat Pompeu Fabra Sep. 2018 – Jun. 2019
- **BSc. Biotechnology** Girona, Spain
Universitat de Girona Sep. 2014 – Jun. 2018

SKILLS

Knowledge of genomics, data processing and high-throughput data analysis.

Programming skills in Python, R and Bash scripting (1+ years experience).

Familiar with Linux, bioinformatics workflow tools (Nextflow), Git, Conda, database management (SQL, Neo4J, mongoDB), Docker and High Performance Computing environments.

Fluency in written and oral English, and strong communication skills.

RESEARCH EXPERIENCE

- **Barcelona Supercomputing Center (BSC-CNS)** Barcelona, Spain
Bioinformatics Scientist Intern May 2021 – Present
Elaborated a project, by the title of *Multilayer networks for clinical and molecular characterization of hepatoblastoma (HB)*, as part of the Computational Biology group from BSC and the Childhood Liver Oncology Group at the Germans Trias i Pujol Research Institute. Key responsibilities were;
 - Applying single and multi-layer network algorithms for the characterization of rare diseases and cancers.
 - Assembling pipelines for the meta-analysis of public high-throughput sequencing datasets.
 - Designing a data processing and analysis tool for the, EU funded, individualized Pediatric Cure (iPC) project and deploying it to the HPC virtual research environment.
- **Ghent University** Ghent, Belgium
Undergraduate member in the Genetics Labs Jan 2018 – Jun 2018
Collaborated in an ongoing research project to complete my Final Bachelor's Project, which can be found at <http://hdl.handle.net/10256/16406>. Key responsibilities were;
 - Following, end-to-end, the process to study transcript expression: from RNA extraction to analysing results via RT-qPCRs.
 - Cultivating and growing in vitro bovine embryo samples to test and optimize a DNA methylation study protocol.

OTHER WORK AND LEADERSHIP EXPERIENCES

- **Camp Eden Woods** Haliburton, ON, Canada
Program Director and Hiring Manager Jun 2016 – Jun 2020
Overall responsible for everything that happened at CEW, an overnight kids camp and an event venue (weddings, corporate events and adult retreats). Key responsibilities were;
 - Recruiting, hiring, training and supervising 25+ employees each year.
 - Planning, guiding and overseeing the camp programming.
- **Fundacio La Marato TV3** Barcelona, Spain
Science Divulgator Oct 2020 – Dec 2020
Planned and holded multiple seminar sessions about COVID-19 at different high schools, as part of an annual charity telemarathon which has raised almost 190 milion euros to date in medical research.
