EDUCATION

- **MSc. Bioinformatics Applied to Precision Medicine and Health** Madrid, Spain
Instituto de Salud Carlos III Sep. 2020 – Oct. 2021
- **MSc. Science Teaching in Secondary Education** Barcelona, Spain
Universitat Pompeu Fabra Sep. 2018 – Jun. 2019
- **BSc. Biotechnology** Girona, Spain
Universitat de Girona Sep. 2014 – Jun. 2018

SKILLS

Omics Analysis: Knowledge of Genomics and Genetics, Sequence alignment tools (i.e. Blast, Bowtie), Variant identification and analysis, RNAseq analysis pipelines (DESeq2, edgeR), etc.

Basic knowledge of: **Python:** Data types, Control Structures, Operations and packages, including Pandas, Scikit-Learn, NetworkX, NumPy, SciPy, Seaborn.
R: Data types, Statistical Analysis and packages, including dplyr, BioConductor, shiny, knitr, ggplot2, igraph.
Databases and others: Linux, bash scripting, Git, Conda, SQL, Neo4j, mongoDB, Galaxy, Docker and HPC systems knowledge.

RESEARCH EXPERIENCE

- **Ghent University** Ghent, Belgium
Undergraduate member in the Genetics Labs Jan 2018 – Jun 2018
Collaborated in an ongoing research project to complete my Final Bachelor's Project, which can be found at <http://hdl.handle.net/10256/16406>. Key responsibilities were;
 - Following the full process to analyse transcript expression: from RNA extraction to obtaining results via RT-qPCRs.
 - Testing and optimizing the Oxidative Bisulfite sequencing protocol for the embryo samples.
- **Barcelona Supercomputing Center (BSC-CNS)** Barcelona, Spain
Bioinformatics Scientist Intern May 2021 – Oct 2021
Elaborated a project, by the title of *Multilayer networks for clinical and molecular characterization of hepatoblastoma (HB)*, as part of the Computational Biology group from BSC and the Childhood Liver Oncology Group at the Germans Trias i Pujol Research Institute. Key responsibilities were;
 - Applying algorithms for multilayer networks to the study of rare diseases and cancer, such as community detection and node affinity.
 - Assembling pipelines and designing tools for the meta-analysis study of public databases.

OTHER WORK AND LEADERSHIP EXPERIENCES

- **Camp Eden Woods** Haliburton, ON, Canada
Program Director and Hiring Manager Jun 2016 – Jun 2020
Overall responsible for everything that happened at CEW, an overnight kids camp and an event venue (weddings, corporate events and adult retreats). Key responsibilities were;
 - Recruiting, hiring, training and supervising 25+ employees each year.
 - Planning, guiding and overseeing the camp programming.
- **Fundacio La Marato TV3** Barcelona, Spain
Science Divulgator Oct 2020 – Dec 2020
Planned and holded multiple seminar sessions about COVID-19 at different high schools, as part of an annual charity telemarathon which has raised almost 190 milion euros to date in medical research.
